Kuadra

Sinetica Design Lab

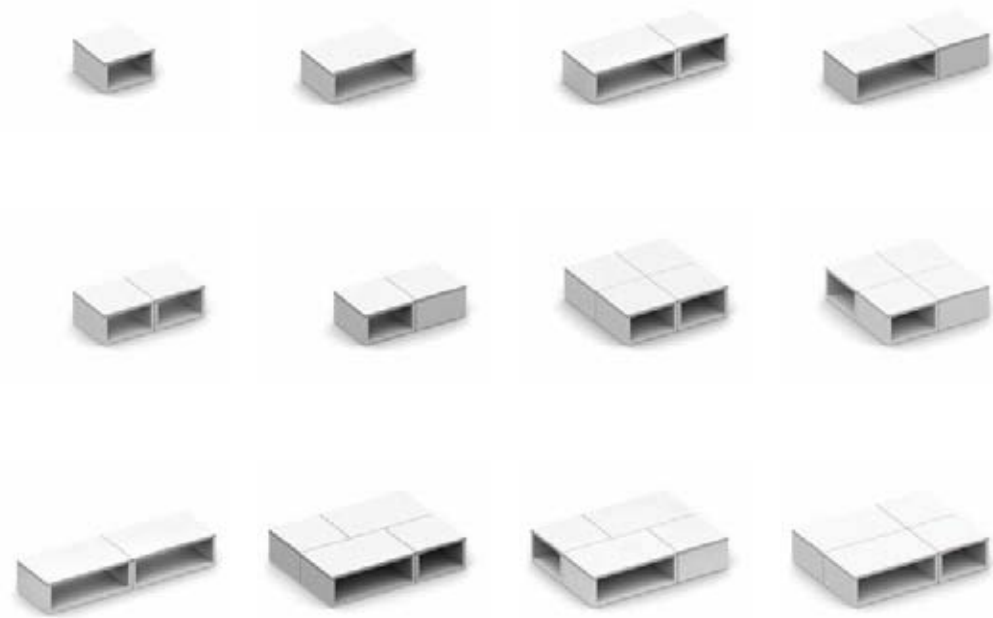

Nell'area lounge come nella reception, è importante creare un'atmosfera accogliente ed elegante, anche utilizzando pochi semplici elementi. Tavolino e contenitore allo stesso tempo, Kuadra consente di dare vita a tante soluzioni diverse, partendo da due soli moduli: uno quadrato ed uno rettangolare. Il suo stile piacevolmente lineare si adatta ad ogni contesto, in sintonia con le lampade, le sedute e gli accessori proposti da Sinetica.

In the lounge area as in the reception one, it is important to create a warm and elegant atmosphere, even using a few simple elements. A table and a container at the same time, Kuadra allow generating several different solutions, starting with only two modules: a square and a rectangular one. Its nicely linear style fits in every context, in harmony with the lamps, the chairs and accessories proposed by Sinetica.

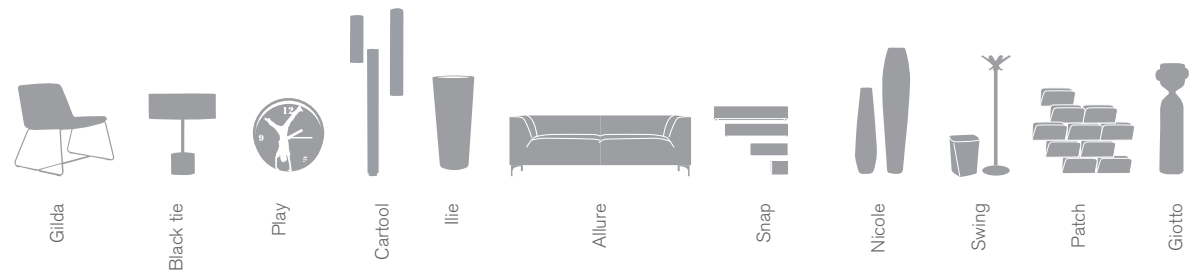

Dans l'espace lounge comme pour l'accueil, il est important de créer une atmosphère accueillante et élégante, même avec quelques simples éléments. À la fois rangement et table basse, Kuadra permet de créer plusieurs différentes solutions uniquement à partir de deux modules: un module carré et un module rectangulaire. Son style agréablement linéaire s'adapte à tous les contextes, en syntonie avec les lampes, les sièges et les accessoires proposés par Sinetica.

Wichtig ist, in der Lounge genau wie im Empfang auch mit nur wenigen, einfachen Elementen eine einladende und elegante Atmosphäre zu schaffen. Gleichzeitig Beistelltisch und Anbauelement, von nur zwei einzelnen Elementen ausgehend, eines ist quadratisch, das andere rechteckig, lassen sich mit Kuadra viele unterschiedliche Lösungen schaffen. Ihr angenehm geradliniger Stil passt sich jeder Umgebung an und steht im Einklang mit den von Sinetica vorgeschlagenen Leuchten, Sitzmöbeln und Zubehörteilen.

En el área lounge, al igual que en recepción, es importante crear una atmósfera acogedora y elegante, utilizando pocos elementos y sencillos. Mesita y mueble contenedor al mismo tiempo, Kuadra permite dar vida a multitud de composiciones distintas, a partir de solo dos módulos: uno cuadrado y uno rectangular. Su agradable estilo lineal se adapta a cualquier contexto, en sintonía con las lámparas, las sillas y los accesorios propuestos por Sinetica.
